

LKCM FUNDS

SUMMARY PROSPECTUS

May 1, 2019

LKCM Small Cap Equity Fund (LKSCX)

Before you invest, you may want to review the LKCM Small Cap Equity Fund (the “Fund”) prospectus, which contains more information about the Fund and its risks. The current statutory prospectus and statement of additional information dated May 1, 2019, are incorporated by reference into this Summary Prospectus. You can find the Fund’s prospectus, SAI, reports to shareholders, and other information about the Fund online at www.lkcmfunds.com. You can also get this information at no cost by calling 1-800-688-LKCM or by sending an e-mail request to info@lkcmfunds.com.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the LKCM Funds’ shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the LKCM Funds (if you hold your Fund shares directly with the LKCM Funds) or from your financial intermediary, such as a broker-dealer or bank (if you hold your Fund shares through a financial intermediary). Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you hold your Fund shares directly with the LKCM Funds, you may elect to receive shareholder reports and other communications electronically from the LKCM Funds by calling 1-800-688-LKCM or, if you hold your Fund shares through a financial intermediary, by contacting your financial intermediary.

You may elect to receive all future reports on paper free of charge. If you hold your Fund shares directly with the LKCM Funds, you can inform the LKCM Funds that you wish to continue receiving paper copies of your shareholder reports by calling 1-800-688-LKCM or, if you hold your Fund shares through a financial intermediary, contacting your financial intermediary. Your election to receive reports in paper will apply to all of the LKCM Funds you hold directly with LKCM Funds or all of the funds you hold through your financial intermediary, as applicable.

Investment Objective: The Fund seeks to maximize long-term capital appreciation.

Fees and Expenses of the Fund: The following table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. The Fund does not impose any sales charges in connection with purchases and sales of Fund shares. However, you may be required to pay a commission to your financial intermediary on purchases and sales of Fund shares, which are not reflected in the tables or example below.

Shareholder Fees

(fees paid directly from your investment)

Redemption Fee (as a percentage of the amount redeemed on shares held for less than 30 days)	1.00%
--	-------

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.75%
Distribution and Service (12b-1) Fees	0.00%
Other Expenses	0.33%
Total Annual Fund Operating Expenses	1.08%
Fee Waiver and/or Expense Reimbursement ⁽¹⁾	-0.08%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement ⁽¹⁾	1.00%

⁽¹⁾ Luther King Capital Management Corporation (“Adviser”), the Fund’s investment adviser, has contractually agreed to waive all or a portion of its management fee and/or reimburse the Fund through May 1, 2020 in order to limit the Fund’s Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement to 1.00% per annum (excluding any interest, taxes, brokerage commissions, indirect fees and expenses related to investments in other investment companies, including money market funds (“Acquired Fund Fees and Expenses”), and extraordinary expenses). The fee waiver and expense reimbursement agreement may be terminated or changed only with the consent of the Board of Trustees.

Example

The following example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (except that the example reflects the fee waiver/expense reimbursement arrangement through May 1, 2020). Although your actual costs may be higher or lower, based on these assumptions, whether or not you redeem your shares, your costs would be as follows:

1 Year	3 Years	5 Years	10 Years
\$102	\$336	\$588	\$1,310

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 45% of the average value of its portfolio.

Principal Investment Strategies: The Fund seeks to achieve its investment objective by investing under normal circumstances at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of smaller companies. The Fund primarily chooses investments that the Adviser believes are likely to have above-average growth in revenue and/or earnings and potential for above-average capital appreciation. Smaller companies are those with market capitalizations at the time of investment between \$600 million and \$5 billion. The Fund is not required to sell equity securities whose market values appreciate or depreciate outside this market capitalization range. From time to time, in pursuing its investment strategies, the Fund may hold a significant percentage of its investments in specific sectors of the economy.

The Fund seeks to invest in the equity securities of high quality companies, as determined by the Adviser, that typically exhibit certain characteristics, including high profitability levels, strong balance sheet quality, competitive advantages, ability to generate excess cash flows, meaningful management ownership stakes, attractive reinvestment opportunities, strong market share positions, and/or attractive relative valuation. These equity securities primarily consist of common stocks, American Depositary Receipts (“ADRs”), and real estate investment trusts (“REITs”).

Principal Risks: The greatest risk of investing in the Fund is that you could lose money. There is no assurance that the Fund will achieve its investment objective. An investment in the Fund also is subject to the following principal risks, which are described in alphabetical order and not in order of importance or potential risk or exposure:

- **Cybersecurity Risk** – The Fund and its service providers, as well as the ability of shareholders to transact with the Fund, may be negatively impacted due to operational risks arising from, among other things, human errors, systems and technology disruptions or failures, or cybersecurity incidents. Cybersecurity incidents may allow unauthorized parties to gain access to Fund assets, shareholder data, or confidential or proprietary information, or cause the Fund or its service providers to suffer data corruption or lose operational functionality. It is not possible for the Fund or its service providers to identify all of the operational risks that may affect the Fund or to develop processes and controls to completely eliminate or mitigate their occurrence or effects. Portfolio companies in which the Fund invests are also exposed to various risks related to cybersecurity incidents, and the value of the Fund’s investments in such portfolio companies could be adversely impacted in the event any such cybersecurity incidents occur.
- **Equity Securities Risk** – The Fund invests in equity securities and therefore is subject to market risks and significant fluctuations in value. Equity securities are generally subordinate to an issuer’s debt in the event of liquidation or bankruptcy. The Fund’s investments in equity securities primarily consist of ADRs, common stocks, and REITs.

ADRs – Investments in ADRs are subject to certain of the risks associated with investing directly in foreign securities, such as currency fluctuations, political and economic instability, capital restrictions, less government regulation, less publicly available information, less liquidity, increased price volatility, and differences in financial reporting standards. ADRs may not accurately track the prices of the underlying foreign securities and their value may change materially at times when the U.S. markets are not open for trading. Investing in such securities may expose the Fund to additional risk.

Common Stock – The value of an issuing company’s common stock may rise or fall as a result of factors affecting the issuing company, other companies in the same industry or sector, or the financial markets overall. Common stock generally is subordinate to preferred stock upon the liquidation or bankruptcy of the issuing company.

REITs – Investments in REITs are subject to the risks associated with the real estate industry, adverse governmental actions, declines in property and real estate values, risks related to general and local economic conditions, increases in

property taxes and operating expenses, overbuilding, changes in interest rates, liabilities resulting from environmental problems, and the potential failure of a REIT to qualify for federal income-tax-free “pass-through” of net income and net realized gains that are distributed to shareholders and exemption from registration as an investment company. REITs are dependent upon specialized management skills and may invest in relatively few properties, a small geographic area or a small number of property types. As a result, investments in REITs may be volatile. REITs are pooled investment vehicles with their own fees and expenses and the Fund will indirectly bear a proportionate share of those fees and expenses when investing in REITs.

- *Inflation Risk* – Higher actual or anticipated inflation may have an adverse effect on corporate profits or consumer spending or the financial markets overall and result in lower values for securities held by the Fund.
- *Investment Risk* – An investment in the Fund is not a deposit with a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. When you sell your shares of the Fund, they could be worth less than what you paid for them. Therefore, you may lose money by investing in the Fund.
- *Market Risk* – Factors that affect markets in general, including geopolitical, regulatory, market and economic developments and other developments that impact specific economic sectors, industries and segments of the market, could adversely impact the Fund’s investments and lead to a decline in the value of your investment in the Fund. Turbulence in financial markets and reduced liquidity in credit, fixed income, or equity markets may negatively affect many issuers worldwide which could adversely affect the Fund. There is a risk that policy changes by the U.S. Government and/or Federal Reserve, including continued interest rate increases, also could cause increased volatility in financial markets and higher levels of shareholder redemptions, which could have a negative impact on the Fund. In addition, political events within the U.S. and abroad, such as a deterioration in trade relations or a government shutdown, may affect investor and consumer confidence and may adversely impact financial markets and the broader economy, perhaps suddenly and to a significant degree. The details and impact of the United Kingdom’s departure from the European Union are not yet known, but could cause increased volatility and have a significant impact on world financial markets, economies, and other international trade agreements. Adverse market events may also lead to increased shareholder redemptions, which could cause the Fund to experience a loss or difficulty in selling investments to meet such redemptions.
- *Sector Weighting Risk* – The Fund may focus its investments in particular sectors of the economy. To the extent the Fund emphasizes investments in particular sectors of the economy, the Fund will be subject to a greater degree of risks particular to those sectors. Market conditions, interest rates, and economic, regulatory or financial developments could significantly affect securities in particular sectors. Depending on the weightings of the Fund’s investment in particular sectors, the Fund may have increased exposure to price movements of securities in those sectors.
- *Security Selection Risk* – Securities selected by the Fund may not perform as anticipated due to a number of factors impacting the company that issued the securities or its particular industry or sector, such as poor operating or management performance, weak demand for the company’s products or services, the company’s failure to meet earnings or other operating performance expectations, financial leverage or credit deterioration, litigation or regulatory issues, or a decline in the value of the issuer’s business and assets.
- *Small Cap Companies Risk* – The Fund invests in small capitalization companies that may not have the size, resources and other assets of mid or large capitalization companies. Small capitalization companies may also have narrower commercial markets and more limited operating histories, product lines and managerial and financial resources than larger, more established companies. Small capitalization companies may be more sensitive to changes in interest rates, borrowing costs and earnings. As a result, the securities of small capitalization companies held by the Fund may be less liquid and subject to greater market risks and fluctuations in value than mid or large capitalization companies or may not correspond to changes in the stock market in general.

Performance: The bar chart and table that follow illustrate annual Fund returns for periods ended December 31. This information is intended to give you some indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and how the Fund’s average annual returns over time compare with those of an index reflecting a broad measure of market performance and an index of funds with similar investment objectives. The Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund’s website at www.lkcmfunds.com or by calling the Fund toll-free at 1-800-688-LKCM.

Calendar Year Returns as of 12/31

During the period shown on the bar chart, the Fund's best and worst quarters are shown below:

Best and Worst Quarterly Returns

18.90% 2nd quarter, 2009
-21.00% 4th quarter, 2018

Average Annual Total Returns for Periods Ended December 31, 2018	1 Year	5 Years	10 Years
Return Before Taxes	-5.70%	1.98%	11.61%
Return After Taxes on Distributions	-9.57%	-1.50%	9.36%
Return After Taxes on Distributions and Sale of Fund Shares	-0.67%	1.39%	9.62%
Russell 2000® Index (reflects no deduction for fees, expenses or taxes)	-11.01%	4.41%	11.97%
Lipper Small-Cap Core Funds Index (reflects no deduction for taxes)	-11.19%	4.33%	12.24%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates, and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown. In certain cases, the figure representing "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor. In addition, the after-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements such as 401(k) plans and individual retirement accounts.

Investment Adviser: Luther King Capital Management Corporation.

Portfolio Managers:

Name	Title	Experience with the Fund
Steven R. Purvis, CFA	Principal, Vice President and Portfolio Manager	Since 1996
J. Luther King, Jr., CFA, CIC	Principal, President and Portfolio Manager	Since Inception in 1994
Mason D. King, CFA	Principal, Vice President, Portfolio Manager and Analyst	Since 2017

Purchase and Sale of Fund Shares: Investors may purchase, exchange or redeem Fund shares by mail (LKCM Funds, c/o U.S. Bank Global Fund Services, 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53201-0701), or by telephone at 1-800-688-LKCM. Redemptions by telephone are only permitted upon previously receiving appropriate authorization. Transactions normally will only occur on days the New York Stock Exchange is scheduled to be open. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly for information relative to the purchase or sale of Fund shares. The minimum initial amount of investment in the Fund and exchanges into the Fund from another fund in the LKCM Funds is \$2,000. Subsequent investments in the Fund for all types of accounts may be made with a minimum investment of \$1,000.

Tax Information: The Fund's distributions are taxable to you and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account, in which case the withdrawal of your investment from the tax-deferred arrangement may be taxable.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a financial adviser), the Fund and its related companies may pay the intermediary for the sale of Fund shares and/or other services. If made, these payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
